Foundations of SCO

Certified training, 19 April – 14 June 2024

Overview

This certified training is designed to provide participants with a comprehensive understanding of SCOs, including their types, advantages and disadvantages, when to go for which type of SCO, and the regulatory requirements. Different combinations of SCOs and practical examples will also be explored to further enhance participants' understanding. By the end of the training, the participants will have been given the essence of SCOs theory and practical tips regarding SCOs implementation issues.

Who is it for?

If you are a beginner in the field of SCOs, this certified training is for you! It is designed for staff members from various programme bodies such as managing authorities, joint secretariats, controllers and audit authorities, seeking fundamental knowledge about SCOs.

What will I learn?

After completing the training, you will have become familiar with working with SCOs across all stages of the project life cycle. This includes effectively communicating SCOs to beneficiaries, assessing project proposals with SCOs, implementing SCOs, and verification and auditing processes related to SCOs.

How long does it take?

It typically takes 18 hours (within 2 months) to complete all components of the Foundations of SCOs certified training.

How do I get my certificate?

The certificate is issued when all mandatory components are completed and upon successful submission of the Foundations of SCOs assignment.
