

Interreg project management

Certified training

15 Oct – 8 Nov 2024

Interreg project management

Certified training, 15 Oct – 8 Nov 2024

Overview

The training addresses all phases of the **project management cycle**, providing learners with an understanding and characteristics of each phase of the project life cycle in the context of the **Interreg**.

During the training, participants will be able to gain new knowledge by completing dedicated online courses. Most importantly, they will have a possibility to verify this newly-gained knowledge in practice by taking part in a number of exercises during group work.

Who is it for?

The training is dedicated mainly to the project officers in Interreg programmes, particularly in Joint Secretariats or Managing Authorities, those who work with projects applicants and beneficiaries on a daily basis. The training covers fundamental aspects of project management, thus is aiming at rather inexperienced colleagues who either started their work recently or have never experienced project management from the partner's point of view.

What will I learn?

At the end of the training, learners (project officers) will be able to better assist and advise project applicants and beneficiaries through all phases of the project lifecycle.

How long does it take?

It typically takes 13 hours to complete all components of the Interreg project management training.

How do I get my certificate?

The certificate is issued when all mandatory components are completed and upon successful completion of a simple final knowledge assessment.

Interreg project management Certified training, 15 Oct – 8 Nov 2024

Training structure

Type of component	Title	Time	Status
Online meeting	Introductory meeting	15. Oct 2024, 10:00 – 12:00 CET	Mandatory
