Interreg evaluation practitioners Certified training, 24 Jan - 26 Feb. 2025

Overview

We are excited to introduce the Interreg evaluation practitioners certified training, designed to provide participants with a solid understanding of evaluation tasks. The training offers hands-on experience and the practical knowledge needed to complete evaluation tasks.

Who is it for?

This training is designed for all Interreg programme officers who are actively involved in the field of evaluation, or who have experience in the field of evaluation (advanced).

What can I learn?

After completing the training you should have a relevant understanding and experience with:

- **Choosing the right evaluation:** Understand when to conduct operational or impact evaluations, and familiarise yourself with the key characteristics of each.
- **Implementation/operational evaluation:** Learn the fundamentals, the optimal timing, techniques and approaches for conducting an implementation or operational evaluation.
- **Impact evaluation:** Explore the essentials, the optimal timing, techniques and approaches for conducting an impact evaluation.
- **Terms of Reference (ToR):** Delve into the factsheet on "Terms of Reference" to understand key considerations, insights from previous experiences, and the essential components to include in a ToR.
- **Utilising evaluation findings:** Explore the factsheet on "What to do with evaluation findings?" to learn how to effectively use evaluation results.

How long does the training take?

It typically takes 20 hours (within 1 month) to complete all components of this certified training. The training requires the participant to attend an online event at the beginning of the training on 24 January 2025, and again at the end of the training on 26 February 2025.

How do I get my certificate?

The certificate is issued when all mandatory components are completed, and upon successful completion of a final assignment.
