Interreg programme introduction

Certified training, 05 Sep – 26 Sep 2025

Overview

This certified training will provide participants with a clear vision of how Interreg programmes function. It will allow for a comprehensive understanding of the overall structure of programmes, and the roles and responsibilities of the different stakeholders involved. It will equally provide participants with in-depth knowledge of the tasks and procedures that apply to the different stages of the programme lifecycle. By the end of the training, participants should have learned the theory and be given practical tips on the way Interreg programmes work.

Who is it for?

If you have recently joined an Interreg programme, this certified training is for you! It is designed for new staff members from various programme bodies, such as Managing Authorities, Joint Secretariats, Controllers, and Audit Authorities seeking basic knowledge about how to successfully navigate all the complexities of Interreg programmes.

What can I learn?

After completing the training, you should be familiar with the way Interreg programmes work, their main stakeholders, and their decision-making processes. You should be prepared to deliver your work efficiently, avoiding the need to go through lengthy processes to understand Interreg's complexities.

How long does it take?

It typically takes 12 hours (over 30 days) to complete all components of the Interreg Programme Introduction certified training.

How do I get my certificate?

The certificate is issued when all mandatory components are completed, and upon successful submission of the Interreg programme introduction assignment.

Interreg programme introduction
Certified training, 05 Sep – 26 Sep 2025
